RECOMMENDATION:

Adopt a Resolution continuing a Local State of Emergency for the winter storm damage from extreme weather events that began on January 7, 2017 through the month of February 2017.

DISCUSSION/SUMMARY:

Atmospheric rivers that began in early January 2017 and continued through February 2017 caused extreme wind, rain and snowfall events throughout Northern California, including Calaveras County. The extreme winter weather conditions provided heavy rains, extreme wind conditions, mud and debris slides, and high snow levels.

These weather conditions left the County’s road system with an initial estimated \$2.3 million in damage to roads and culverts, leaving several roads closed or limited to one-way traffic. The damage is beyond the resources of County staff and additional assistance is needed to repair the roads and restore service.

The County Director of Emergency Services on January 18, 2017 proclaimed a Local Emergency. A copy is attached.

The extreme weather events have created the following emergency conditions:

1. Downed trees that endanger the traveling public and block traffic on County maintained roadways.
2. Plugged culverts that caused erosion to the roadway section rendering all or portions of the road impassible.
3. Erosion to the roadway section rendering all or portions of the road impassible.
4. The collapse of culverts that led to the loss of roadway sections, thus closing all or portions of the roadway.

The Calaveras County Board of Supervisors ratified the proclamation of the existence of a Local State of Emergency at their duly noticed Board of Supervisors hearings on January 24, 2017,

February 14, 2017, February 28, 2017, March 14, 2017, March 28, 2017, April 11, 2017, April 25, 2017, May 9, 2017, May 23, 2017, May 30, 2017, June 13, 2017, June 27, 2017, July 11, 2017, July 25, 2017, August 8, 2017, August 22, 2017, August 29, 2017, September 12, 2017, September 26, 2017, October 10, 2017, October 24, 2017, November 14, 2017, December 5, 2017, December 19, 2017, January 9, 2018, January 23, 2018, February 13, 2018, February 27, 2018, March 13, 2018, March 27, 2018, April 10, 2018, April 24, 2018, May 8, 2018, May 22, 2018, June 12, 2018, June 26, 2018, July 10, 2018, July 24, 2018, August 14, 2018, August 28, 2018, September 11, 2018, September 25, 2018, October 9, 2018, October 23, 2018, November 6, 2018, November 13, 2018, December 4, 2018, December 18, 2018, January 8, 2019, January 22, 2019, February 26, 2019, April 9, 2019, May 28, 2019, July 23, 2019, September 10, 2019, November 5, 2019, December 17, 2019; and,

FINANCING:

The County's Local Emergency Declaration supported the State of California's declaration of a state level disaster declaration, with the possibility of a federal declaration. Declarations from the state or federal levels allow the County to seek reimbursement of the damage costs from the California Disaster Assistance Act through the California Office of Emergency Services and the Stafford Act, through the Federal Emergency Management Agency.

ALTERNATIVES:

The Board could choose not to declare that the extreme weather events are a danger to the public. This is not recommended as this would create a significant delay to repairs of the County road system and negatively affect the residents of the County. In addition, the County may then be responsible for funding the repairs from other County funds, thus delaying other County needs.
